Among 20 Companies making Reports to the Massachusetts Insurance Commission, last January,—among which were the loading and largest Companies of the country,—it was shown that this company had done its business since its organization, at a less ratio of expense to its receipts, than any of the 20, thereby commending it to all seeking Life Insurance.

It takes Notes for half the premium when it amounts to \$50, and its dividends, which were 50 per cent the last year, (and have averaged nearly that amount since its organization,) are applied to the payments of the Notes.

The Large Capital of the Company; its Economy in Management; its accommodating terms, with its promptness in paying Lesses, are so many reasons why persons should insure their lives in it.

FIRST. The Machines manufactured by the Grover & Baker Machine Company have taken the FIRST PREMIUM at the late State Fairs held in New York, New Jersey, Pennsylvania, Ohio, Indiana, Illineis, Michigan, Iowa, Missouri, Kentucky, Tennessee, Virginia, North Carolina, Alabama, and California.

SECOND. The work executed by the Grover & Baker Machines has received the FHIST PREMIUM at every State Fair in the United States where it has been exhibited.

Experience proves that there are only two valuable sewing machine stitches—the GROVER & BAKER STITCH and the SHUTTLE STITCH, by some salied the "LOCK STITCH." These stitches have each their peculiar merits and excellenties. For some purposes the one stitch is better simpled, and for some purposes the other, and a selection should always be made secondingly.

FOURTH. The Grover & Baker S. M. Co. manufacture in addition to their celebrated GROVER & BAKER STITCH the most perfect SHUTTLE or "LOCK STITCH" machines in the market, and afford purchasers the opertunity of selecting, after trial and examination of both, the one best guited to their wants. Other companies manufacture but one kind of machine call, and cannot effer this opportunity of selection to their customers.

FIFTH. The Grover & Baker S. M. Co. are the only parties who manufacture and sell machines which both SEW PER-FECTLY and EMBROIDER PERFECTLY.

A pamphlet containing camples of both the Grover & Baker Stitch and the Shuttle Stitch in various fabrics, with full explanations, diagrams, and illustrations to enable purchasers to examine, lest and compare their elative merits, will be furnished, on request, from our offices throughout the country. Thuse who desire machines which do the best work, should not fall to send to

GROVER & BAKER'S SEWING MACHINE COTTON will be found superior to any in the market. It is made by the best European manufacturers, and put up on spools of 200 or 500 yards, expressly for the Grover & Baker S. M. Co. Inconsequence of extensive and timely arrangements with these manufacturers, we are able to sell this superior cotton below the prices of other leasting manufacturers.

GROVER & BAKER'S SEWING MACHINE Twist, long recognized as the best in the market, furnished in any quantities desired at wholesale or retail at the lowest market prices.

Shall this life of mine be wasted?

Shall this vineyard lie untilled? Shall true joy pass by untasted. And this soul remain unfilled? Shall the God-given hours be scattered, Like the leaves upon the plain? Shall the blossoms die, unwatered By the drops of heavenly rain?

Shall I see each fair ann waking, And not feel it wakes for me? Each glad morning brightly breaking, And not feel it breaks for me? Shall I see the roses blowing,

And not wish to bloom as they? Holy fragrance round me throwing, Loring others on the way. Shall I hear the free bird singing In the summer's stamless aky Far aloft its glad flight winging, And not seek to soar as high?

Shall this heart still spend its treasures. On the things that fade and die? Shall it court the hollow pleasures. Of bewildering vanity?

Shall these lips of mine be idle? Shall I open them in vain? Shall I not with God's own bridle Their frivolities restrain? Shall these eyes of mine still wander?

Or, no longer turned afar, Fix a firmer gaze and fonder On the bright and morning star? Shall these feet of mine, delaying, Still in ways of sin be found? Braving snares, and madly straying On the world's bewitching ground?

No. I was not born to trifle Life away in dreams or sin ! No, I must not, dare not stifle Longings such as those within!

Swiftly moving, upward, onward, Let my soul in faith be borne, Calmly gazing—skyward, sunward, Let my eye unshrinking turn— Where the Cross, God's love revealing, Sets the fettered spirit free; Where it sheds its wondrous healing,

There, my soul, thy rest shall be Then no longer idly dreaming, Shall I fling my years away; But each precious hour redeeming, Wait for the eternal day!

Plows and Points,

After riding some two hours we arrived at the confidence of the confide top, for we had even arrived at the ruins of Bab-ylon; and this great mound of earth that we

were on, was the grave of the golden city. "I believe from the summit, raising some hundred feet above the plain, the walls of the ancient city may be traced. But a hot wind driving burning sand and the impalpable dust of ages into the pores of our skin, made every effort to open an eye so terribly painful, that we gave up the idea in despair of either tracing walls, or indeed, of looking about us much any-

I remember seeing, away to the west, lines of the Union. remember seeing, away to the west, lines of willows, and a silver thread winding away into the distance; and nearer, some unsightly bare mounds, looking as if volcanic fire had been at work underneath the smooth surface of the plain. work underneath the smooth surface of the plain, and had thrown these mounds up in the spirit of pure mischief. That silver thread was our first glimpse of the waters of the Euphrates, and the mounds, all that remained of the once beautiful hanging gardens of Babylon; at least so the conjecture of men of research have accounted for them. But so completely have the prophecies been fulfilled—so completely have the prophecies been fulfilled—so completely have the prophecies been fulfilled—so completely have the mame and the remnant been cut off of all pertaining to the once mighty city, that even the great hill on which we were standing is only by conjecture supposed to be the ruin of some great huilding or royal palace that stood within the walls—possibly the palace of Semirams. Whereas, The term of enlistment of a part of the volunteer forces of the United States will expire during the coming year; and whereas, in addition to the men raised by the present draft, it is deemed expedient to call out 300,000 volunteers, to serve for three years, therefore, I, Abraham Linceln, President of the United States and Commander-in-Chief of the Army and Naxy thereof, and of the militis of the several States when called into actual service, do issue this my proclamation, calling upon the Governors of the different States to raise and have salisted into the United States arrive, for the various companies and regiments in the field from their respective States, their quotas of 300,000 men.
